

CGS 2820C Web Development	40-minute Hands-on Midterm using only Notepad Name: _____ Grade: _____ (200pts)	
Before the actual exam starts, we will download as a group any specific images to an images folder on your desktop.		
Directions	Points	
Code ALL necessary and standard html tags for a simple HTML 5 (3pts) web page. Set the appropriate tag to make the Title Bar file name read “ Midterm using Notepad ” (2pts) Save your webpage as index.htm . (Note: if you get stuck on an item, skip to next item!)	5 (3, 2) 1 Browser only No Google...	
Correctly link a CSS file named styles.css to index.htm . Set ALL styles in styles.css .	5	
In the correct section add appropriate <meta> tags for: Description (3pts) and Author (2pts)	5 (3, 2)	
In styles.css set body width=1100px (2), centered (2), background color = #AFA (light green) (1).	5 (2, 2, 1)	
Create an images folder with the Image below. In your CSS file, add the background image to the Header element http://faculty.scf.edu/winterf/0ClassFolders/2820Web/images/BannerCGS2820.jpg If you cannot add the image in the CSS file, do it in the HTML file for half credit.	10	
Under Header, add Main element tag (3) with a CSS style background color = #AAA (grey)	5 (3, 2)	
Start the Main Element with a Horizontal Rule (3) with CSS width=50%, height=4, color=blue	5 (3, 1, 1)	
Under the Horizontal Rule, add a Header 1 tag (5) to display Your first and last name . In your CSS file, center it (2), font=Arial (2), color= red (1). (Do not type “ <i>Your first and last name.</i> ”)	10 (5, 2, 2, 1)	
Add an External hyperlink on index.htm to IBM.com (3) which opens in a new window (2)	5 (3, 2)	
Add a working Email link on the Home page (index.htm) to your personal email address	5	
At the top of index.htm , in the upper-left corner above add an Internal hyperlink that displays only the word Bottom that links to an ID named End at the very bottom of index.htm	5	
Under the Header 1 tag, add a Paragraph stating: "I will only use Notepad to create this page."	5	
Inside the Main element tag for the following and correctly add the 3 item Ordered list below: A. Apple B. Banana C. Carrot Note the A, B, C (4pts)	10 (6, 4)	
Correctly add the three item Unordered list (6 pts) below using a Square ■ list style (4pts): Fruits Nuts Vegies (Reminder: Set all styles in styles.css)	10 (6, 4)	
Create a second simple Web page named Page2.htm that displays ONLY the words Page Two as a centered Header 1 tag in the main body (3). Using the appropriate HTML 5 element, (3) create a working Navigation on the top of both index.htm and Page2.htm that reads: Home Page Page Two On both pages, add Local hyperlinks from index.htm (Home Page) to Page2.htm (2) and from Page2.htm to index.htm (Home). (2)	10 (3, 3, 2, 2)
