Test website for ease of navigation.	**10/08/08**			
Project estimated Cost: $10,000.00	Total Hours:			

❧ Ten Web Site Design Suggestions:

1) Design a look that is simple and to the point keeping with the goal of the client.
2) Use colors that are web-safe to prevent dithering on different browsers.
3) Use font families going from specific choice to generic.
4) Keep choices for simple and at a minimum, 1 to 2 styles.
5) Use relative units to unify the look on different browsers.
6) Avoid large areas of white-space surrounding the web page content.
7) Use thumbnail images with links to larger pictures to help with load time.
8) Include width and height attributes for inline image.
9) Check and double check spelling to discourage any unnecessary embarrassment.
10) Do not deviate from the agreed plan of development without due compensation for any new changes.
